## Warranty Terms and Conditions

Subject to the following, C.O. White Pty Ltd ACN 004 169 233 of 20 Calarco Drive, Derrimut, Victoria, 3030, trading as CNP Brands ('CNP Brands') warrants that:

- 1 This product complies with all safety requirements, and where applicable, those specified in the Australian and New Zealand Safety Standards as at the date of purchase; and
- 2 This product is free from defects in workmanship and material under normal use for 12 months from the date of purchase, as recorded on the invoice ('warranty period'). However, where the product has been purchased or is used for commercial purposes, the warranty period is three months from the date of purchase, as recorded on the invoice. In the event of a defect during the warranty period, you are requested to contact your retailer or place of purchase.

Subject to the following, the warranties do not apply in the following circumstances:

1. Where the product is not supplied to CNP Brands or an authorised repair agent with the original sales receipt.
2. The defect is the result of use of the product not in accordance with the instructions given in any manual or instructions supplied with this product (including, but not limited to, where the maximum weight allowance specified for the product has been exceeded), or maintenance that is contrary to the instructions given in any manual or instructions supplied with this product.
3. Damage caused directly or indirectly by repairs that have been carried out by you and any third party (excluding authorised repair agents).
4. Where the defect is discolouration, damage to the fabric or watermarks due to washing that has not been in accordance with the instructions given in any manual or instructions supplied with this product, exposure to rainwater, or exposure to sunlight.
5. The defect is as a result of accidental damage.
6. The defect is as a result of damage caused to the product by negligent transportation of the product other than by CNP Brands.
7. Where the product has been damaged through the use of accessories that have not been approved for use by CNP Brands in relation to the product.

The warranties are non-transferable and may only be invoked by the first owner.

Any undertakings implied by the Goods Act 1958 (Vic) in respect of the product are expressly negated.

None of the above is intended nor should be interpreted as restricting, modifying, excluding, or having the effect of restricting, modifying or excluding the rights of the consumer under the Trade Practices Act 1974 (Cth), in relation to the supply of the product to the consumer, including merchantable quality of the product, fitness for purpose, supply by description and/or supply by sample (subject to the limitations on such rights as set out in that Act). The above is to be interpreted in accordance with the law of the State of Victoria and the Courts of the State of Victoria have exclusive jurisdiction over any dispute arising out of the effect or interpretation of the above.

# Instructions for Use and Warranty

## Sussex Cot 091115

# Safety Precautions

## WARNING

- TO PREVENT FALLS, THE MAXIMUM MATTRESS THICKNESS SHOULD NOT EXCEED 150MM.
- TO PREVENT FALLS, THE MATTRESS BASE OF THIS COT SHOULD BE ADJUSTED TO THE LOWEST POSITION BEFORE THE CHILD CAN SIT UP UNAIDED.

**BEFORE ASSEMBLING THE TIMBER COT READ AND UNDERSTAND THE INSTRUCTIONS. INCORRECT ASSEMBLY MAY MAKE THE COT UNSAFE. DO NOT USE THIS COT IF ANY PART IS BROKEN, TORN OR MISSING. KEEP THESE INSTRUCTIONS IN A SAFE PLACE FOR FUTURE REFERENCE.**

### Recommended Mattress Size.

This cot has been manufactured for use with a mattress which measures **690mm wide by 1300mm long and 100mm to 150mm in thickness.** The width and length are specified because it is important that the gaps between the mattress and the sides and ends of the cot will not exceed 40mm. This is to minimise the risk of a child's limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm with the mattress base in the lower position to minimise the risk of a child climbing or falling out of the cot.

### General Precautions

- Follow the manufacturer's assembly instructions in detail to ensure the safety features of the cot are not compromised.
- This cot has been manufactured for one child only, with a maximum weight of 18kg.
- The Drop Side must be raised when the child is unsupervised.
- When the mattress base is assembled in the lower position, ENSURE the higher cot base holes are covered TIGHTLY with the fitted plugs supplied. This is to prevent finger entrapment, swallowing and inhalation hazards.
- Ensure the cot is placed at a reasonable distance from curtains, blinds, heaters and power points.
- Ensure the cot is completely assembled and check that all parts are securely tightened before placing the child into the cot.
- Ensure medication, string, elastic, small toys or small items, such as money etc... are always kept out of the child's reach when in the cot.
- Do not provide a foothold for you child to climb out by fixing a toy or decoration to the inside of the cot.
- Do not over tighten screws.
- Ensure that the child is clear of any moving parts when adjusting the cot.
- Retain your sales receipt to provide proof of purchase.

B. Fixed Side Panel

C. Drop Side Panel

G. Cot Assembly Screws

I. Filling Screws

J. Castors

K. Allen Key

## Assembly Instructions

It is preferable that two people assemble the cot in the room in which the cot is to be used. As small parts are involved in assembly, children should be kept clear of the assembly area. Dispose of all packaging material immediately after the cot is assembled.

This cot has an adjustable height base for a high or low position.

**With base in high position-** this is for use when your baby is young and cannot sit up unaided.

**With base in low position-** this is the normal position for an active baby which can sit up unaided.

### Filling Screws for the Adjustable Mattress Base

The cot comes with Filling Screws (x4) already located in the upper holes of the End Panels. If changing the Mattress Base from the lower to the higher position, you must swap over the Filling Screws. It is important that the Filling Screws are replaced into the open holes. Ensure they are secured tightly with the Allen Key and check regularly that they do not loosen.

#### **NOTE:**

For safe transit, the Drop Side Panel is fitted with rubber caps over each protruding pin. Please remove the rubber caps prior to assembly, and dispose of immediately to avoid them becoming a swallowing/choking hazard.

### To Attach the Drop Side Panel

With one End Panel standing upright, attach one side of the Drop Side Panel by guiding the pin on its upper corner into the hole located at the top of the upper Drop Side Plate. Next, guide the pin on the bottom of the rail into the hole located at the top of the lower Drop Side Plate.

Repeat this step for the other side of the Drop Side Panel.

### To Attach the Mattress Base

Attach each side of the Mattress Base to one End Panel using two Screws and the Allen Key. Do not tighten Screws completely. Repeat for other end of Mattress Base.

Do not screw in completely

### Attaching the Fixed Side Panel

With the cot still standing, slide the Fixed Side Panel between the two End Panels and attach using all remaining four Screws in the same manner as above. Now pull the cot together and tighten all screws with the Allen Key provided.

**WARNING: DO NOT OVERTIGHTEN SCREWS.**

Insert the four Castors into the end of the cot legs where the sockets are pre-fitted. Ensure they are attached securely.

### To Operate the Drop Side Panel

To raise the Drop Side Panel, lift it to the highest position. The Drop Side Panel will lock into position automatically.

To lower the Drop Side Panel, lift it and then press both silver pins simultaneously on the left and right of the Drop Side Panel and it will slide down freely. For safety, do not force the Drop Side Panel to go any lower as shown below.

# How to Care for your Cot

## Cleaning

For cleaning, wipe with damp cloth and use a mild soap solution if necessary. Do not use detergent or abrasives on cot surfaces. Always store product in a clean dry place.

## Maintenance

Always check parts regularly for tightness of screws, nuts and other fasteners, and tighten or replace if required. To maintain the safety of your nursery product, seek prompt repairs for bent, torn, worn or broken parts. Use only those parts and accessories approved by CNP Brands.

If the Drop Side Panel does not slide down smoothly, use a silicone based spray, ensuring it penetrates the mechanism sufficiently.

If you have any difficulties in assembling the cot, please contact our Service Department on 1300 667 137.
